## THE ACTIVATED H<sub>2</sub>O™ IS THE SAFEST WATER HEATING DEVICE

Your safety is our top priority. We carefully integrated the thermostat and sensors to prevent water from overheating. The **Anti scalding** valves prevent you from activating boiling water accidentally.

# THE ACTIVATED H<sub>2</sub>O™ HEATER

Temperature and Status Display

The Activated H<sub>2</sub>O™ presents its uniqueness and the aesthetics of living while providing your customized needs.

## TASTE OF FRESHNESS

Alupower heating technology makes every cup of water the purest by keeping sufficient oxygen in the water. Delimesca filtering technology also effectively removes all contaminants and calcium from the water.

Anti-Bacterial

Anti-Limescale

## SUPERB WATER QUALITY

Delimesca purifies tap water, remove calcium, chlorine, and other contaminants. It also improves the taste of drinking water, extends the heater and the faucet's life cycle. With The Activated H<sub>2</sub>O™, every glass of water will be pure and refreshing.

### Simple Design

A compact, simple and quality product that will match your home or work environment.

### Instant Hot Water

Alupower heating technology activates boiling water in 4 seconds.

### Eco-Friendly

As you only use what you need, there is very little water and energy wastage, achieving a greener household.

### Compact

Free yourself from kettle cluster and liberate at least one plug point with The Activated H<sub>2</sub>O™.

### Safety

Our carefully designed safety mechanism makes it impossible to turn on boiling water accidentally.

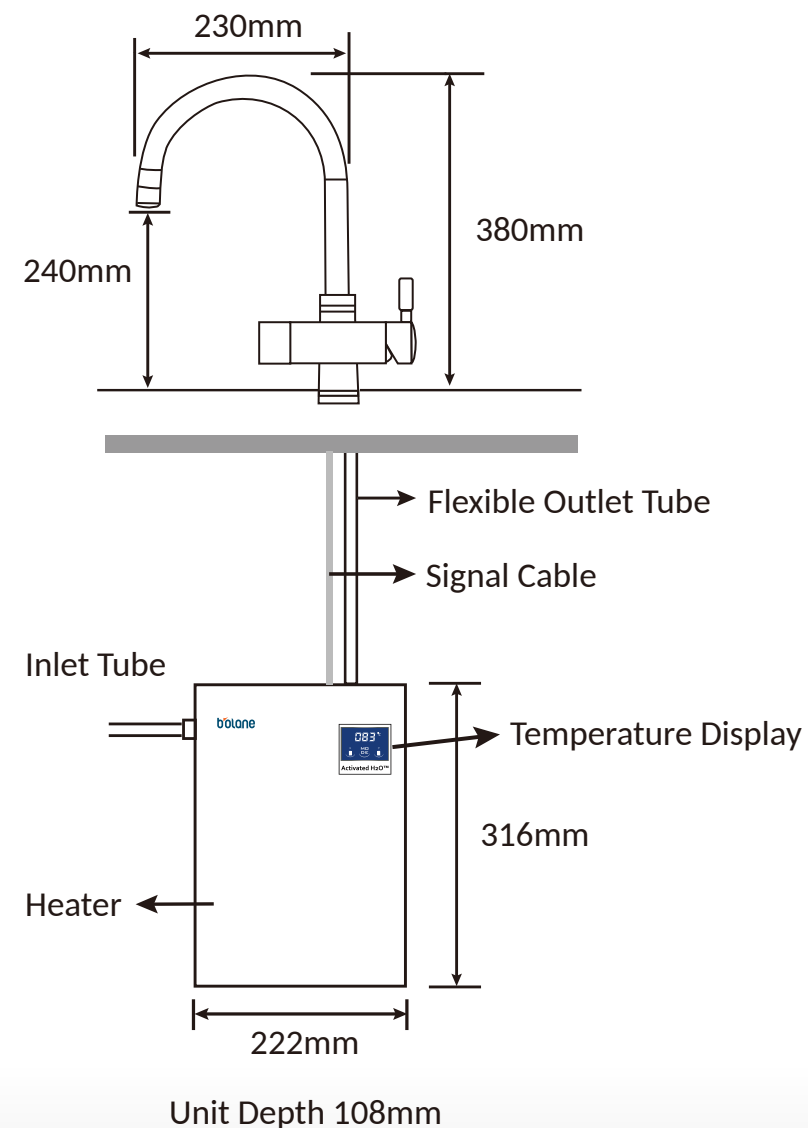

### User Friendly

Enjoy pure boiling water at the touch of a button.

## TECHNICAL SPECIFICATIONS

Discription	The Actiavted H <sub>2</sub> O
Heater Dimensions (H x W x D)	<b>316mm x 222mm x 108mm</b>
Heater Weight (g)	<b>5.5 kg</b>
Capacity (liters)	<b>2.5L</b>
Voltage	<b>220V-240V AC,50Hz</b>
Wattage (W)	<b>1400W</b>
Standby Power	<b>15W</b>
Initial Heating Time (mins)	<b>4.5-6</b>
Reheating Time (mins)	<b>1-1.5</b>
Dynamic Bar Pressure (bar)	<b>1.5-3.5</b>
Safety Feature	<b>Thermal protection circuit Anti-scalding mechanism</b>
